LIST OF KRA BRANCH PROJECTS RELATED TO GUIDED MISSILES FY 1969

Chemicals Branch (M/Ch)

- a. Soviet Capability for Production of High Energy Rocket Propellants (Exploratory)
- b. Evidence of East German Production of Rocket Propellants (Tentative, pending exploratory research)

Non-Ferrous Metals Branch (M/NF)

- a. Evidence of Soviet Production of High Heat Resistant Materials for the Guided Missile Program (Exploratory)
- b. Economic Factors Affecting Soviet Capability for Production of High Heat Resistant Materials (Exploratory)

Transportation Branch (S/TR)

- a. Capability of Soviet Rail Transport Network to Support Large-Scale Operation of Rail Mobile Guided Missile Systems
- b. Capability of European Satellite Road and Rail Transport Networks to Support Large-Scale Operation of Mobile Guided Missile Systems
- c. Evidence of Soviet Bloc Modification of Road or Rail Networks to Support Guided Missile Deployment

25X1D1a [REDACTED]

Construction Branch (S/CST)

- a. Evidence of Construction Activity Related to the Soviet Guided Missile Program
- b. Cost of Construction of Soviet Guided Missile Sites or Facilities

25X1D1a [REDACTED]

Electrical Equipment Branch (I/EE)

- a. Investment and Operating Costs for Electronics required by the Moscow Surface-to-Air Missile System
- b. Electronic Facilities or Organizations Supporting the Soviet Guided Missile Program
- c. Economic Factors Affecting Soviet Electronics Production for

Guided Missile Systems

Transport and Heavy Equipment Branch (I/TB)

- a. Evidence of Soviet Rail Equipment Production Related to the Guided Missile Program
- b. Consequence and Effects of Large-Scale Rail Mobile Missile Programs on the Railroad Car Producing Industry and Rail Transportation

Weapons and Ammunition Branch (I/WA)

- a. Evidence in the Soviet Land Armaments Industry of Production Related to Guided Missile Systems
- b. Organization and Structure of Selected Segments of the Soviet Defense Industry
